TEAM ID	PNT2022TMID27559
PROJECT NAME	Analytics for Hospitals' Health-Care Data
DATE OF THE MEETING	07-11-2022

MINUTES OF THE MEETING : SPRINT-3

- In this stage, the complete dashboard creation and health care data report is done.
- We have created the interactive dashboard to analyze the data. We represent the data in terms of graph.
- In dashboard,the department analysis,ward analysis,severity of illness and available of extra rooms in hospital is done.
- We have uploaded the patient medical reports and maintain records.
- Then the health care data report is taken based on the severity of illness.
- At last, we are about to start the user story.
